

TOOL COMPANY

CAPABILITIES STATEMENT:

BB&H Tool Co. is a Columbus, Ohio-based manufacturing company specializing in precision CNC machining, custom component manufacturing, and full-scope problem-solving for the Department of Defense and aviation sectors. With a heritage rooted in American manufacturing excellence and decades of defense-related precision engineering experience—particularly through our team's contributions at Battelle Memorial Institute—we are purpose-built to support the mission-readiness of U.S. military and aerospace systems.

We are proudly aligned with the values of quality, reliability, and innovation, guided by a robust Quality Management System and a team of engineers who don't just manufacture parts—we solve systemic problems at the source.

CORE COMPETENCIES:

Precision CNC Machining milling and turning across steel, aluminum, titanium, and engineered plastics

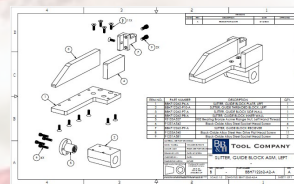

Military and Aerospace Component Manufacturing – Built to exact tolerances and compliant with defense specifications

Rapid Prototyping and Reverse Engineering – Accelerating timelines with intelligent, iterative manufacturing support

First Article through Production Support – Timely product launches followed by optimized production deliveries

Small Lot and High-Mix Production – Configured for flexible defense manufacturing needs

Complex Assembly and Fabrication – Internal capabilities to build and validate complete systems

DIFFERENTIATORS:

Engineering-Driven Manufacturing: Our team includes mechanical and aerospace engineers with extensive DoD and aviation backgrounds—enabling true root-cause solutions, not just part delivery

Aerospace-Aligned Quality: Internal Quality Management System built to AS9100 standards ensures compliance, traceability, and accountability

Fast-Turn Capability: Streamlined quoting and flexible machining cells for high-priority DLA and defense contracts

Security-Cleared Team & Facility: Prepared to handle CUI drawings and documentation securely

Problem Solvers: We integrate into your program and act as an extension of your mission—not just a vendor

COMPANY SNAPSHOT:

Cage Code: 9ZQV3
UEI: RVZVSAFZKYG9
JCP: 0090213
Business POC: Ian Molitors
Phone Number: 614-868-8634

Quality Management System

BB&H Tool Co. operates under a robust, audit-ready Quality Management System that aligns with AS9100 standards. Our QMS governs every aspect of production—from material traceability to final inspection—and reflects our commitment to continuous improvement, customer satisfaction, and compliance with defense and aerospace quality requirements. We are actively pursuing AS9100 certification to further formalize our processes and strengthen our position as a trusted DoD supplier.
